IN RE: MIDAMERICAN ENERGY COMPANY	DOCKET NO. TF-03-396
--	----------------------

ORDER APPROVING TARIFF

(Issued September 19, 2003)

On August 25, 2003, MidAmerican Energy Company (MidAmerican) filed a proposed tariff with a new optional service of intra-day meter reading for gas transportation customers. The service will be an on-line service added to MidAmerican's electronic bulletin board. MidAmerican reports that transportation customers and agents have requested this type of service to allow them to better manage their supply with their consumption. The proposed cost of the service in the tariff is \$10 a month per meter.

The Board will approve the proposed tariff. MidAmerican is offering the service at the request of its transportation customers. In addition, MidAmerican states they plan to track the actual development cost and revenue recovery from these tariffs. The data will be included with a rate case filing seeking to reflect the cost incurred and revenue collected pursuant to this tariff and as part of the annual revenue requirement and rate design. MidAmerican has requested the tariff be

effective January 1, 2004, to allow time to develop the software to implement the on-line service.

IT IS THEREFORE ORDERED:

The proposed tariff filed by MidAmerican Energy Company on August 25, 2003, is approved effective January 1, 2004.
